PRESS RELEASE

H&W Emergency Vehicles, Hillsboro, Oregon, is pleased to announce the appointment of the two (2) new following key associates to our team.

MICHAEL (MIKE) BEUTLER-CONTRACT ADMINISTRATOR

Michael (Mike) Beutler recently joined H&W Emergency Vehicles as a Contract Administrator & Project Management Specialist. Mike will be working from our Corporate office and factory in Hillsboro, Oregon.

Mike's specific focus will be to assure that our customers needs are met when a new apparatus is ordered, or when an apparatus is brought in for repair or refurbishment, regardless of the size of the project. Mike's goal will be to track each project from beginning through completion and acceptance of the completed project and act as a customer advocate to make sure your job is completed right the first time.

Mike comes to H&W with over 20 years of experience in the emergency vehicle industry, having recently served as a regional manager for a large national supplier of firefighting nozzles, water flow equipment and lighting components. Mike has also been involved in all facets of the emergency services industry, having served as both a volunteer firefighter and fire service instructor. Mike is actively involved with the Society for the Preservation and Appreciation of Antique Motor Fire Apparatus in America (SPAAMFAA). Mike is currently restoring a 1964 fire engine that was designed by his father.

Please help us welcome Mike on board. Mike can be reached at our headquarters office at 503-848-3276, via email at mike@hwev.com or via cell phone at 971-506-6911.

MICHAEL (MIKE) BAGOTT-TERRITORY MANAGER

Michael (Mike) Bagott recently joined H&W Emergency Vehicles as a Territory Manager, primarily dedicated to the Eastern Washington and Eastern Oregon Counties. Mike will be working from his office located in Palouse, Washington.

Mike has over 14 years in the fire service as a dedicated volunteer in Palouse, Washington, serving as Chief the past 6 years. Mike also brings 16-years experience in the retail auto business in sales, parts, and service. Quality customer service has been the key to keeping Mike's family's dealership going through four generations and over 80-years.

Mike has also developed a passion for used fire apparatus, as he himself has had to seek this type apparatus for his own fire department. In this effort, he has started a website specializing in marketing used fire apparatus in the Northwest. If you are interested in his site, please go to nwfiretrucks.com or you can link it through our website at H&W.

Mike's passion for fire apparatus doesn't stop there. Mike has collected 300+ piece diecast fire truck collection and it continues to grow as he finds new and unique pieces to add to his collection. Feel free to stop by and see it if you are in the Palouse area.

Mike will be serving the eastern side of our two states and welcomes the opportunity to be of any assistance he can to your agency, rather it be designing a new apparatus, looking for a used apparatus to supplement your fleet or helping you surplus your used apparatus. Mike can be reached via email at Mike.Bagott@hwev.com or via phone at 800-473-5483 or via cellular at 509-595-3207.

Please join H&W and welcoming these two fire service professionals to the our team. They look forward to being of service to you soon.

Respectfully

Steve Jahn
Director of Sales & Marketing
